

## *Dragon & Shoemaker*

Join Shoemaker in his dangerous adventure!

4toon Studio starts distributing *Dragon & Shoemaker* for the Android platform

Cracow's independent game studio introduces their first game available at the Amazon AppStore and Google Play.

*Dragon & Shoemaker* is an action game that allows the player to become a Shoemaker — a legendary hero who saved Cracow from an evil dragon.

Cracow, 2<sup>nd</sup> August 2013

*Dragon & Shoemaker* is a challenging and extremely addictive 3D side-scrolling platform game based on one of the most popular Polish legends: about Shoemaker and an evil dragon. The game will take you on a journey across an early medieval world of Cracow and its surroundings. Your goal is to guide the protagonist through five different and exciting locations and to become Cracow's legendary Hero — the Dragon Slayer.

In *Dragon & Shoemaker* game violence is not the main element of entertainment. Therefore everyone, regardless of age, may join Shoemaker in his incredible adventure. The game will take the player into landscapes typical for Cracow; with its famous places and buildings such as Wawel Royal Castle, Market Square and Dragon's Cave. Last, but not least, *Dragon & Shoemaker* is a feast for the eye — thank to original drawings, animations and environment mapped with every detail.

Game features:

- Storyline based on old Cracow legends,
- Challenging and addictive gameplay,
- Drawn by hand fairytale — like graphics,
- Lots of fun for everyone, from kids to grandparents,
- Five unique locations: Meadow, Village, City, Castle and Dragon Cave,
- 10 Levels in each Chapter,
- Two Levels of difficulty (Casual/Hard),
- Item Shop,
- Easy and intuitive controls.

Pricing and availability

The game is available worldwide as a paid app on Google Play (Android) in category Games/Arcade & Action and Amazon AppStore (Android/Kindle Fire) in category Games/Action for \$0.99.

Technical requirements

*Dragon & Shoemaker* requires devices running Android (ver. 2.3 or higher) including Amazon Kindle Fire. 4toon Studio is currently working on a version of the game for iOS devices.

About 4toon Studio

The 4toon Studio was founded in May 2012. *Dragon & Shoemaker* is the first project of the studio: an arcade game on mobile devices running the Android, iOS and Windows Phone operating systems.

Other activities include: 3D animation, kinematics, modeling objects on request (either manually or using a 3D Scanner), grid creation and preparation, UV mapping, texturing, retopology, rigging, skinning and animation.
